

MS XENOS III

With just five cabins and an overall length of almost 30 meters, the refined furnishings immediately envelope the senses. The master cabin features a king size bed and "his and hers" separate bathrooms. The four remaining cabins are twins.

M/S Xenos III is completely air conditioned throughout and meticulously maintained by her crew of 5. There is an extensive, roomy galley to rival that of fine hotels, complete with all accessories and household appliances including connecting clothes washer and dryer facilities.

There is a 70 hp speedboat, inflatable dinghy, water skis, jet ski, windsurfer, 2 canoes, snorkeling and fishing equipment.
